The increase of VAT doesn't have an global effect on the existing gross caller rates. Due to the increase of VAT the net rate (normally the basis for calculating the payout) will be changed.

It's possible to upgrade your existing rate, unless the upper limits of EUR 2,-- per minute and EUR 30,-- per call (gross) would be exceeded. If referring to this any questions appear please contact us.

IV. For all number ranges:

It's not clear yet, if the changed caller rates will also have an effect on the conditions, which we have stipulated with our clients.

You are kindly asked to obey the legal provisions for pricing and consider the changes in your indication of price.

If further questions appear don't hesitate to contact us.
